NIFT (National institute of Fashion Technology)

FINE ARTS (VNSGU | SIR J.J. | M.S UNI.)

NID & NIFT (COMBO)

NID & NIFT & INTERIOR (COMBO)

POST GRADUATE ENTRANCE PREPARATION

Architecture, Design & Fashion

IIT-CEED (Common Entrance Exam of Design)

NID & NIFT (COMBO)

M F Tech / MFM

NID & NIFT & CEED (COMBO)

PORTFOLIO DESIGN:

A design portfolio refers to a comprehensive collection of the work by students in their career span. "It is the CV of the designers" while securing admission in foreign design university, design portfolio is the basic requirement. Some of the premier institutes even in INDIA require it at large stages of admission. Based on specialization, students choose the contents of a portfolio, be it photographs, sketches, printed materials, drawings, visualization, ads, etc. it should be a well thought-out folder as it can make one's career. A portfolio can be rewarding to students to map their growth, include different perspectives, engage in self-reflection, etc.

VEEEKSHAYAN assists aspiring design students to prepare their portfolios for undergraduate and post graduate programs

STUDY ABROAD:

Should study abroad, is a crucial decision that will change your life for good. Earlier considered a status gimmick, students now a days taking this option rather seriously for better life ahead.

VEEEKSHAYAN consults students in designing their portfolio as per the need of different colleges in securing admission

COURSE STRUCTURE

COURSES	OBJECTIVE	TIME
Building Basic Blocks	Opening students perspective & developed and sharpen basic skills & find students Inclination	8 hour
Design Aptitude Course	Student require deep knowledge of design aptitude	75 hour
General aptitude test	Develop and getting master in general aptitude	22 hour
Sharpening process	Building self confidence & Entrance preparation for second round	15 hour

COURSE DURATION

Crash course	15 days	30 days	60 days
Regular course	6 month	1 year	2 year

CAREER IN ARCHITECTURE

An architect is a person trained in the planning, design and oversight/supervision of the construction of buildings only an architect can make world's tallest building and in that they also plan world's smallest smart homes, offices, restaurants. Some architects specialize as building code, building envelope, sustainable design, technical writing, historic preservation or conservation and other forms of specialist consultants.

The scope for making a career in architecture has never been as big as it is today. "Thanks to technological advancement and big-scale projects, a number of specializations such as building sciences, building material engineering, project management, urban planning, urban design and landscape architecture have emerged in this field."

A fresh graduate can expect to start off with an initial package as it varies with the location of your workplace and your area of specialization.
